OCL Spicy Cabbage Dish

Step 1:
Boil chopped cabbage not too long (you still want it crunchy). Boil until just a little after the color changes darker.

Step 2:
Put it on a plate with rice vinegar (bought at Fresh Thyme), and soy sauce. At the office we like it spicy, so we added hot peppers as well, this is not necessarily though!

Step 3:
Munch it all up! You just made yourself a healthy snack/meal/whatever you wanna call it!
